

Dear FCC,

Please do NOT allow The Consumer Banking Assoc. to be able to call me or the millions of other Wisconsin citizens after WE specifically said NO to the disgusting and very bothersome Telemarketing Calls.

It is an infringement on our personal privacy to be constantly called on our phones by these kind of people. If they choose to send us garbage junk mail, atleast we have the choice of opening it or just throwing it away.

But randoming calling us all hours of the day and night on Our phones, does Not allow us to edit out their calls without interfering with our lives.

How do you not answer the phone if you have loved ones? How do you not answer the phone if you have family? How do you not answer the phone if you know someone or have family serving in the military in Iraq or Afganistan ? The answer is you don't!!!! You pick up the phone and get stuck talking to some slick, hard sell lying Telemarketer.

We overwhelmingly chose Not to be called anytime by these people by personally signing up on The NO CALL LIST!!! Even President Bush said the constant calling and interrupting by these Telemarketers was Ridiculous..

Do your Mandated job and Protect the Public by NOT allowing these various business concerns to constantly hassle us on our Telephones. Whether it is one day later or 18 months later, the calls are Definitely UNwanted and UNacceptable.

Irritatebly Yours,
Dr Brian Maisel
